Experience

Freelance Web Developer
01 / 2011 - Present

I have been responsible for producing beautiful web projects, emails and mobile prototypes. In addition, I am also responsible for internet and social marketing, search engine optimization, web maintenance and development for content management systems.

StemsNet
05 / 2012 - 07 / 2013
Owner, Technical Director

Website design, development, search engine optimization and maintenance.

The Graphic Department
08 / 2007 - 08 / 2011
Website Sales Rep

Responsible for following leads and gaining clients for creative projects.

InterRep LLC
Frontend Web Developer   01 / 2009 - 06 / 2010

Lead web developer & project manager for start-up company specializing in Strategic Internet Marketing and Web Development. Main tasks included optimizing existing websites as well as new development projects using best practices for organic growth while managing a small team of three designers and developers.

Rainbow Art Glass
Web Developer   07 / 2006 - 01 / 2009

Provided creative services for print and web including monthly brochures, annual catalog, maintaining multiple websites and creating promotional advertisements. Was in charge of an e-commerce project using the CubeCart PHP platform which introduced the company to online sales. Also maintained software and hardware as well as backup and server maintenance.

Education

William Paterson University of New Jersey   2009 - 2010
